

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair! Our Taxes are now some of the highest in the Nation, and as Senior Citizens, it is getting to be more than one can handle. Let's stop trying to put people under financially, especially the middle class Senior citizens, and let's try to make it easier for them in their last years. Taxes up, interest rates down, what else will you in government do to us??? Oil up, Gas up in price. PLEASE GIVE US A BREAK!

SINCERELY,

MR AND MRS. LINWOOD AND ELIZABETH ABBOTT

Sincerely,

Elizabeth P. Abbott
